## HE IS NOT FRETTING.

CONGRESSMAN KINSEY AND THE TENTH DISTRICT REPUBLICAN NOMINATION.

The St. Louis Congressman Feels That Some Recognition Is Due Him for His Work Supervising Inspector-General Dumont Demands an Investigation—The Navy Yard Workers for Red.

WASHINGTON, D. C., Aug. 4.—Congressman Wm. Kinsey is not fretting himself over the Tenth District Republican nomination. After working earnestly and accomplishing as much, if not more, than some others have, he feels that perhaps some recognition is due him from the Republicans of his district. His greatest surprise is that some of his own immediate neighbors have taken up the fight against him. Mr. Filley's feelings in the premises he can in some measure account for—the lack of a warm support from the Congressman for Postmaster. Kinsey indorsed another Mr. Roscoe Weber for Internal Revenue Collector, which no doubt has developed opposition from that gentle man's friends.

The Congressional Committee has indicated its kindly feelings towards Mr. Kinsey, which he fully appreciates. One thing is sure Mr. Kinsey proposes to see the present Congressional work through before leaving his post. Harbor Master Murphy of St. Louis has written here to get a letter for publication regarding the Jefferson Barracks bill. It occupies a first place among the private measures and will go through if the Speaker recedes from his present position.

Capt. Smith, ex-Commissioner of Pensions, is here. He would like to be sent abroad in the Government interest.

## Wants to Be Investigated.

WASHINGTON, D. C., Aug. 4.—Supervising Inspector General of Steamboats James A. Dumont has written a letter to Speaker Reed requesting that an investigation by a special committee of the House be made of his office since his incumbency in 1886 to the present time. Gen. Dumont bases his request upon the fact that he has received from the American Brotherhood of Steamboat Pilots, demanding such an investigation by Congress.

In connection with their resolution the Brotherhood have issued a circular, in which they state that "Mr. Dumont is a gentleman endowed with a powerful political mind and that he possesses an unusual interest for evading investigation."

Gen. Dumont says he counts an investigation by a special committee that will lay up all charges that have been filed against him.

## Anti-Lottery Legislation.

WASHINGTON, D. C., Aug. 4.—The Senate committee to-day took the anti-lottery bill prepared at the Post-office Department, and which was reported favorable to the House last week. The bill was expressed as to the constitutional right of Congress to interfere with matters intrusted to the states. The bill was referred to a sub-committee consisting of Senators Sawyer, Mitchell, and Reagan, for examination and report. The nomination of Stephen M. Eaton to be Postmaster at New Orleans will be favorably reported from the committee.

## Reed's Election Workers.

WASHINGTON, D. C., Aug. 4.—The Committee on Postage to-day acted on the resolution introduced on Friday last by Mr. Cummings of New York, providing for a congressional investigation as to the necessity for the employment of a postmaster at the new naval station at Kittery (Me.) Navy Yard, in Speaker Reed's district, prior to and during the congressional session in September, by agreeing to report substitute reading on the lottery Tracy for an explanation of his action, to be made in the House.

## FIFTY-FIRST CONGRESS.

WASHINGTON, D. C., Aug. 4.—The Comptroller of the Currency has declared a fourth dividend of 10 per cent in favor of the creditors of the California National Bank of San Francisco, making in all 95 per cent in claims proved amounting to \$456,667.

## A Fatal Wreck.

WASHINGTON, D. C., Aug. 4.—There were about thirty Senators present when the Senate was called to order at 10 o'clock this morning, but by the time the journal was read and the morning business fairly begun there were more than a quorum present. Mr. Davis offered a resolution, calling on the Secretary of War for information respecting the accident to the last boat in the canal on Saturday. On Saturday last, Friday Mr. Davis said this was a serious calamity to the great commerce of the lakes, inflicting damage to the commerce of the upper and lower lakes to the sum of \$100,000 a day.

He also referred to the failure of the House to act on a bill passed by the Senate several months ago, providing for a second larger lock.

Mr. Cockrell expressed surprise that the business branch of Congress paid no attention to the accident.

Mr. Payne said the matter was one of general interest to the whole country. The bill to provide for the second lock had passed the Senate and had gone to the House. He did not know how delicate a Senator should be in talking about the other's business; but he was informed that the bill had been introduced by the River and Harbor Committee of the House and that for several months past the committee had been trying to get it through the House.

The damage to the broken lock, he said, was being repaired rapidly and would be completed in a few more days, but the other locks were to be set up the second week in August.

Mr. Davis said that the damage to the canal lock had no doubt that the failure to pass the bill for improving the Mississippi River was equal to that of the damage to the canal.

The resolution was agreed to.

The preceding officer (Mr. Ingalls) said that he had voted with regret the wrong tendency to allude to terms of severity and disparagement to the proceedings of the other branch of Congress, and that the fundamental principles of parliamentary law to refer in one House to what was done or said in the other House. He hoped that the rules in the Senate would be in a dignified and in the protection of its own immunity from reprimand would observe those rules in the future.

Mr. Gibson said this incident to the canal lock also emphasized the necessity for taking up the bill to improve the Mississippi River.

Mr. Davis said that he had voted for the bill to improve the Mississippi River.

Mr. Davis said that he had voted on Saturday evening against Mr. Ingalls' amendment and would so again, because he thought that the rates proposed in it were too low. He favored the bill to improve the Mississippi River, but he did not believe in unnecessarily high rates of duty. He believed that the bill was to be introduced the other day, in giving manufacturers no greater rates of duty than were absolutely necessary to him to carry on their business successfully.

Mr. Plumbe read from a letter published in the New York Tribune, in which he said that the Finance Committee had been a protestation on principle, but he did not believe in unnecessarily high rates of duty.

Mr. Davis said that he had voted on Saturday evening against Mr. Ingalls' amendment and would so again, because he thought that the rates proposed in it were too low. He favored the bill to improve the Mississippi River, but he did not believe in unnecessarily high rates of duty.

Mr. Davis said that he had voted on Saturday evening against Mr. Ingalls' amendment and would so again, because he thought that the rates proposed in it were too low. He favored the bill to improve the Mississippi River, but he did not believe in unnecessarily high rates of duty.

## REAL ESTATE NEWS.

MR. E. LEF AND J. W. PEOPLES EXCHANGE  
\$35,000 PROPERTY.The Market Opens Actively for the Week  
With all the Principal Agencies—Numerous Small Sales Reported—Personal and Other Items of the Day of Interest to Property Owners.

The real estate market opened for the week with a briskness that was manifest in the demand for property made by callers at all of the principal agencies throughout the day. Indications for another heavy midsummer week's business are very good indeed. The largest transaction that came to the surface during the day was the consummated by W. H. Miltenberger in a \$35,000 exchange of interest between Lee, Lee, the builder, and Mr. Peoples, the teamster. Mr. Lee offered the property fronting 150 feet on a street avenue by a depth of 70 feet in the southeast corner of Ewing, which he has improved during the past few months with a two-story building, having fourteen apartments arranged for store rooms and flats. Most of these places are already rented on the basis of an income of \$3,250 a year for the entire premises. This property Mr. Lee valued at \$35,000 in his deal with Mr. Peoples, and accepted from him in payment for it vacant ground aggregating 1,100 feet in Clayton Heights valued at \$15 a foot and two six-room frame dwellings with 100x150 feet of ground each in the same residence subdivision, valued at \$8,000, assuming in addition thereto the payment of a mortgage on the Clayton Heights property of \$10,000.

NOT SO OLD AS STATE.

A statement with reference to the Investment & Loan Association has been published stating that its investment is ninety-two million dollars. This is incorrect. The "investment" is not so measurable as the item would make it appear to be, for the fact is it has been running only sixty-two months, and the last semi-annual statement of the secretary covered that period of time.

John J. Doe has engaged himself with the firm of D. J. Hayden & Co. as salesmen. John Herman has returned home from the Northern States.

M. H. Collins, Jr., has returned from a trip to Colorado.

Adam Boesch is about to leave on his summer vacation.

The Chicago syndicate who purchased the Am. tract of 420 acres last week for \$247,000, were in the city yesterday, and the purchase was the first of many expressed themselves highly pleased with their venture.

THE COLORED MANUAL TRAINING SCHOOL.

The colored manual training school, established at Clayton, has the following with reference to the sale of the Kirkwood Seminary:

The Kirkwood Seminary—A tract of 200 acres, formerly held by Mrs. Anna Sneed Cairns to some colored people for the purpose of establishing there a manual training school for colored people, was sold for \$20,000, with interest, in favor of two men, colored people, and many people in the country, residents of Kirkwood in particular. Many have scoffed at the transaction, but the report is that the two men have the funds to build their Kirkwood property and move elsewhere in case the school was established. Whether the school will be established or not, we opened there or not we are unable to say, but that the seminary property has been sold to a colored man in an as yet unnamed place in the country in the subscriber's case last Tuesday. The dead end July 25, and conveys from Anna Sneed Cairns, and John G. Cairns, to the colored man.

W. H. Gaffney, 10 years old, son of Henry Gaffney, who has a residence on Henry Bridge-Water, in the consideration of the sum of \$30,000, the purchase of a tract of 100 acres in the Upper and Lower Missouri Valleys, where is located the rainfall in very heavy, snows also heavy, and the rainfall in the fall and winter. He was found by reason of the man who called an ambulance and had him sent to the City Hospital. His condition pronounced critical.

NOTE.—T. indicates trace of precipitation.

W. H. HAMMON, Observer.

Indications.

WASHINGTON, D. C., Aug. 4.—Fair weather continues, with a high pressure system from the Ohio Valley and Tennessee. Generally clear weather prevails this morning in the extreme west, but the pressure system is moving eastward, and the weather is becoming more variable in the Upper and Lower Missouri Valleys, where is located the rainfall in very heavy, snows also heavy, and the rainfall in the fall and winter. He was found by reason of the man who called an ambulance and had him sent to the City Hospital. His condition pronounced critical.

**BRIEF** Weather forecast for twenty-four hours, beginning at 8 a. m. to-day, for Missouri: Showers; cooler; north-westerly winds.

**BRIEF** Weather forecast for twenty-four hours, beginning at 8 a. m. to-day, for St. Louis: Rain; cooler.

THE prediction that the Mayor will withdraw the Shipley nomination suggests his opportunity to present himself in a better light.

THE shelving of the Federal election bill at this session would perhaps prevent the shelving of a large number of Congressmen at the next election.

SENATOR BLAIR does not propose to allow the crowning triumph of his career—that nine-day speech—to be beaten, if a "gag" can be passed to prevent it.

THE amendment of the lunacy laws of the State so that the liberties of citizens may be properly guarded should be one of the first duties of the next Legislature.

A WORLD interviewer found the President and his Cabinet all inclined to preserve a dignified silence on the subject of RUSSELL HARRISON's lottery advertising business.

THE Republicans seem determined to compel the country to elect a Democratic majority in the next Congress as the only way of relief from discrimination, jobbery and partisan outrage.

EVERY Republican objection to the force bill is worth at least twenty Democratic denunciations. The patriotic Republicans may do great service for their country and party in this direction.

THE fairness of the decision of the House Committee on Elections that the seat of Representative BRECKINRIDGE is vacant would be more manifest if the report were not so tightly wrapped in a blue shirt.

THE war between Guatemala and Salvador is rapidly reaching the comic opera point of ridiculousness. The other States of Central America ought to borrow a well organized police force and put a stop to the squabble.

OLD SOL is anticipating the Kansas farmer in the matter of corn-burning this season and there is a lively prospect that all the latter will have to roast will be the politicians. Indications from the State point to an immense consumption of this sort of material.

THAT the three popular teachers sent to Europe by the Post-Dispatch are enjoying their journey to the utmost is manifest from the interesting letter from them published in yesterday's SUNDAY POST-DISPATCH. The thousands of our readers who secured this rare pleasure for them share in it.

AN additional cause of congratulation for the Republicans party over the adoption of the dependent pension law is the alleged necessity of employing 528 additional clerks in the Pension Bureau. Thus the hands of the party workers and the old soldiers mingle in the pleasing task of scooping the Treasury.

THE SUNDAY POST-DISPATCH not only fills to the fullest measure the desire for home news of absent St. Louisans, but keeps their friends posted as to their movements abroad. The budgets of fresh and entertaining news from the summer resorts form a bright feature of the paper which is full of interest for all.

THE field of the real fight against the lottery evil is now in Congress, and there are strong signs that the lottery managers realize this fully and are massing their corruption forces there. The conduct of Congressmen in the progress of this fight should have the close scrutiny of all respectable citizens. There can be no honest defense of the lottery swindle.

AS THE career of a young man of the better class in Russia is pretty strictly limited to the army or the civil service it is not surprising that the surplus intelligence among the university students finds vent

in plots against the Czar. Almost every such plot draws its raw material from the universities, and the horror of the situation is increased by the fact that the students invariably prefer suicide to Siberia.

## PLUMB'S FIGHT.

Senator PLUMB has attracted attention to himself as a kicker in the party traces and his vigorous attacks on the McKinley-Morrill tariff scheme now rank next to BLAINE's in importance. He has frequently voted with the Democrats in efforts to amend the bill, and not only favors BLAINE's reciprocity plan, but has proposed and supported an amendment to provide for the admission of goods at half the tariff rate whenever it shall appear to the satisfaction of a circuit or district court of the United States that the home production of the same or competing articles is controlled by a trust or combination. Such an amendment would make the strongest friends of the measure its bitterest opponents, and they justly regard PLUMB's method of attack as scarcely less fatal than BLAINE's.

But, like BLAINE, he intends to benefit, rather than hurt, his party by opposing its bad measures—to act as the safety valve of Kansas discontent, and thus keep his State true to the party and true to PLUMB. His course on the tariff question, like his course on the greenback and silver questions, was taken on the ground that some Western kicking against Wall street financial policies, protection for trusts, etc., was necessary to save the party its Western strongholds. The Iowa election taught him that his kicking must be more vigorous this session, and it has been more vigorous, but never rebellious.

He alarmed the party leaders by helping the Democrats to send the silver bill back to the House a free coinage measure, but fell into line for a compromise which stops silver coinage altogether at the end of a year. In like manner on the tariff question he will stand by the party in the end for PLUMB's sake, but in the meantime will take a combative stand against subsidizing trusts for the party's sake.

THOMAS HART, a resident of Australia who is eighth in descent from Shakespeare's sister Joan, is the nearest living relative of the great poet.

THE Duke of Hamilton received \$3,000,000 for the Hamilton Palace collection, recently sold, and the Government made him pay \$30,000 in land revenue tax on this.

MARION CRAWFORD, the novelist, it is said can be emotional in English, German, French, Italian, Latin, Greek, Sanskrit, Arabic, Persian, Russian and Turkish.

ONE of Horace Greeley's nephews is a barber in a little town in Warren County, Pennsylvania. In personal appearance he is not unlike his distinguished uncle.

JAMES LANE ALLEN, the Kentucky writer, is very tall, but his figure is shapely. Though still quite a young man, there is gray in his hair and mustache, but his eyes are bright.

THE President and Secretary Halford were lost in the woods while riding near Bradenburg a few days ago. Night coming on they saw the lights of the capital and were thus guided home.

LODGE DUNLO, whose full name is William Frederick le Poer Trench, and who is trying to get a divorce from his wife, whom he picked up in a London concert hall, is described as a weak-eyed, weak-faced, bearded boy with reddish hair and a head that runs back to the angle.

SENATOR DAVIS of Minnesota was one of the first telegraph operators. Recently he narrated with every evidence of pleasure in the recital of his experience in the office at Waukesha and along the line for a distance of twenty-four miles, which was under his charge. He was, he said, one of the first four men in the country to read telegraphy by sound.

## WOMEN OF THE WORLD.

PATTI is coming to America in 1892.

LADY DUNLO won her case and retains her title and her rights as wife of a very undesirable husband.

MRS. ELLINOR HALLE designed the gold medal presented to Stanley by the Royal Geographical Society.

MRS. AND MRS. NAVARRO have been making a tour in the midlands of England, and have spent some time at Nottingham.

MRS. DOROTHY STANLEY, it is said, does not care for dress, but her artistic sense of color and form is so strong, and true that she can't help getting herself up becomingly.

THE Duchesse de la Rochebeaupied Biscaia is one of the grandes dames of France. She is a woman of 45 years, has fine auburn hair, clear-cut features and a fund of animal spirits.

HOW any one can find an immoral tendency in the book must be puzzling to the most casual reader. The avowed object of the work is not only to condemn all immorality, but to discourage romantic love as essentially immoral. Its analysis and exposition of passion are repulsive and are about as likely to excite licentious thoughts as the dissection of a human floater. Its very repelliveness and the shocking view it takes of all of sexual love have brought upon it the condemnation of critics. On the other hand the moral purpose of the work is manifestly to urge upon men and women the adoption of an ideal of chastity so lofty that it is declared impossible of achievement.

THE absurdity which frequently marks literary censorship is illustrated in this instance of the attempted suppression of a book which endeavors to present immorality in its most repulsive aspect and to foster a high ideal of chastity. Indiscriminate prudery may be as dangerous as indiscriminate license, in that it condemns alike the moral purpose linked with fidelity to truth and the immoral purpose combined with salacious suggestion, and while exciting prurient curiosity makes to the unsophisticated mind immoral what would otherwise be innocent. It may be added also that its advertising value is not overlooked by erotic authors.

IN the enabling act passed by the special session of the Illinois Legislature for the benefit of the World's Fair, is a provision for the filling of submerged lands belonging to the State on the lake front, their use for World's Fair purposes, and their reversion to the State when put to any other use. All of this is said to be legislation not covered by the call for the special session nor included in the title of the bill, and therefore unconstitutional. But the fear that Gov. FRAYER will veto the entire bill on account of a single provision, which is simply void if unconstitutional, is probably unfounded. If the act is all right in other respects, he can safely leave the defective feature to the courts until the regular session can pass a supplementary and corrective act.

THE resolution for an investigation as to the public emergency which calls for the illegal colonizing of 2,000 voters at Kittery Navy Yard, in Speaker REED's district, within sixty days of the election was referred to the Committee on Rules, of which the Speaker is boss. But if he should conclude that dignified silence is the best answer to such improprieties, the House can call on Secretary TRACY for an explanation of the strange emergency which calls for this sudden activity in an abandoned navy yard and in repairing two old hulks that were condemned as unworthy of repairs twenty-four years ago.

AFTER a thorough investigation of the Cape May cottage matter, the New York WORLD finds the fact utterly inconsistent with the newspaper statement that President HARRISON refused to accept the cottage as a gift, and paid \$10,000 for it after

trying it for a time. WILLIAM V. MCKEEAN purchased it as the agent of a number of well-known gentlemen, who furnished the purchase money and authorized him to present it to Mrs. HARRISON as a gift. It was so presented and accepted, and the recorded deed, published in full by the WORLD, shows that the transfer was made for a consideration of one dollar only. The WORLD asserts with positiveness that it knows some of the contributors to the fund have not yet received their money back, and that Mr. MCKEEAN is not a man to withhold it from them if it had been paid back to him.

## MEN OF MARK.

HENRY IRSEN makes his wife copy all his manuscripts for him.

EX-UNITED STATES TREASURER SPINNER IS dying of cancer in Florida.

SEARING TAYLOR, the biggest sugar planter in Louisiana, never uses sugar in his coffee.

BALFOUR, the Tory statesman, never reads newspapers. He reads books, and noted for his obstinate folly in public affairs.

LAWYER HUMMEL of New York says that money, matrimony, and alimony make nearly all the business for the courts of justice.

THOMAS HART, a resident of Australia who is eighth in descent from Shakespeare's sister Joan, is the nearest living relative of the great poet.

THE Duke of Hamilton received \$3,000,000 for the Hamilton Palace collection, recently sold, and the Government made him pay \$30,000 in land revenue tax on this.

## THEIR SUMMER CLOTHES.

HOW THE MEMBERS OF CONGRESS COOL THEIR BODIES AND BRAINS.

What They Wear in Hot Weather—Tom Reed's Lavender Sash—The Cooling Machinery of the Capitol—The Bath Rooms of Congress and the Men Who Use Them—The Senators' Summer Dress.

WASHINGTON, July 31.—Speaker Reed has one of the grandest summer suits in Washington. I saw him on Pennsylvania Avenue this afternoon. His big round cancan ball of a head was covered with a broad brimmed straw hat and his 300 pounds of bone and flesh were adorned with a suit of lavender gray. His coat was a cutaway but was unbentoneous at the front, and I noted that he had a flannel shirt and that his pantaloons were held up by a blue silk band one foot wide and necessarily at least six feet in length. This is the fashionable Congressional suit for summer, and it has been adopted by Reed, Henry Cabot Lodge and others of the Eastern Congressmen. About one-half of the members of the House now appear upon the floor without vests and dignity has gone to the winds. A large number of the statesmen men wear flannel shirts, and Henry Cabot Lodge has one of navy blue, and he varies this at times with another of a delicate lavender. He wears a flannel shirt collar fastened to the shirt, and his coat is also of blue flannel. His pantaloons are light, and a deep blue silk band holds them in place. Below the bottom of his pantaloons show out russet shoes, and he looks more ready for a foot race, or a camping-out expedition than for speech-making.

Gen. Spaulding sticks to his big white collar, but he walks five every day, and spends one-fourth of his time in rushing into the cloak rooms to change them. He has the same blue suit that he wore in the winter, but he wears his vest unbentoneous, and during the last few days.

THE PERSPIRATION

has run off of him in streams. He does not seem to mind it, however, and he manages to get along without the use of a fan. Dockery of Missouri always has a fan in his hand and he always looks hot. Amos Cummings has been in a parboiled state, and though he works right along, he cannot stand the heat. His summer suit is of gray and his handsome face is shaded as he walks upon the avenue by a tall, white pine. Stewart of Vermont is now a symphony in yellow. His coat is a delicate lavender. His shoes are the brightest of golden morocco, his necktie is of Jockey green, and his vest a white yellow. All of his ties and some of cotton silk stockings and his sailor's complexion and sandy beard shines out of them as though they were touched up by an artist to be a part of the yellow whole.

Gen. William "Springer" has shed his vest, but he bounds the air just as earnestly as though the thermometer was at zero, and he is ready to make a speech whenever he is called upon. He walks in and out of his buttonholes, notwithstanding his negligee dress, and he frequently gets an audience to listen to his talk. He is the brightest and brashest of the young men of the House of Missouri. He came out yesterday in a light black silk coat, a white vest and a white sailor's complexion and low uppers. McKinley made one of his biggest speeches the other day without a vest. It wore a white suit, and this was like a sunbeam upon the floor.

EXPANSIVE OF WHITE SHIRT

showed out with all the gloss of the Chinese laundry. When he walks he bends up towards the ceiling in emphatic gesture, the lit-ground tag that is fastened to the end of the hose is bent over his head, and he stands straight at right angles with the hose and just over the center button of the black band of his pantaloons.

As he advanced past the galleries, with a spruce air, of which was the right before and who want to put them selves in immediate trim.

THE RUSSIAN STATE

and even in these hot July days will find some of the greatest men of the country in a white suit. He is a man of the steam room and drinking cold water until the perspiration runs down their cheeks and off their backs in a series of drops, and then they will go off and take a plunge, and then come back to sweat again. After they have been well rubbed with a sponge, off with their vest, come out at peace with themselves and all the world. Not a few of them bring their clothes to be washed, and when they are fully dressed, and are ready to be seen, are as bright and brazen as the Representatives.

Speaking of the Senate, the members of our chamber are in a white suit, and dressed in their dress as the Representatives.

A large number of them wear no vests at all, and some of them have a red necktie and a white vest, and others a white vest and a black waistcoat, and the like.

He is as thin as a rail and his six feet of bone and skin look longer and thinner than any man in the Senate. And he and Eugene Hale of Maine have evidently bought summer suits in partnership. They have

as they sit side by side they are dressed enough alike to be brothers. Senator Ingalls is a good deal of a dandy, and his body makes his white starched bottom stand alone. I have seen other statesmen who have spoken under similar circumstances, and it is the general opinion of the Senate that the dandy-shirred statesmen are the best off. Among the handsomest of these is Breckinridge of Kentucky, who has donned his status in a white suit.

Gen. Banks is in a paper and salt gray suit. He does not wear a vest, and his flannel shirt is the most popular. He weighs 160 pounds, and he is a nobody blue scarf, and upon the lapel of his coat he wears a bright button-hole bouquet of LA France.

Gen. Cannon of Illinois makes all of his speeches in a gray cutaway suit. He works himself into a sweat whenever he speaks and his shirt is white, and his vest is black, and his standing collar for a turban and he white every time he takes the floor. Gen. Banks wears a white vest and a white shirt.

Gen. Blair is another straw-hatted Senator, and John Sherman has a white Panama which he wears with a very small white vest, and his white necktie makes him cooler than ever. Mr. W. C. Gwin, of Mississippi, and he is the handsomest black-haired, bright-eyed young man in Congress. His light summer suit is a white shirt and a white vest, and he looks not unlike a wealthy Southern planter in his seashore suit.

The great appearance of the House of Representatives, however, is a gray suit. Tom Payne of Pittsburgh, looks around in a \$35 Scotch waistcoat and Gen. Tracy of New York has a gray suit, with a white vest and a white vest.

Gen. Butterworth looks like a preacher in his white. Hines, Sun Morse of Massachusetts, the man who makes the stove polish, has

A COAT ON BOMBAZINE

which abounds in the house. His coat is polished as his own face, and his figure is bound around with a white vest. Judge Wickham of Ohio has married winter to summer and sticks to his white vest. Gen. Tracy puts on a yellow vest West for appearance sake.

O'Donnell of Michigan always looks cool, and his white necktie makes him cooler than ever. Mr. W. C. Gwin, of Mississippi, and he is the handsomest black-haired, bright-eyed young man in Congress. His light summer suit is a white shirt and a white vest, and he looks not unlike a wealthy Southern planter in his seashore suit.

The great appearance of the House of Representatives, however, is a gray suit. Tom Payne of Pittsburgh, looks around in a \$35 Scotch waistcoat and Gen. Tracy of New York has a gray suit, with a white vest and a white vest.

## VIGOROUSLY DISPUTED.

The Alleged Discovery of Maj. Andre's Sword by Beaman Rejoice.

ATLANTA, Ga., Aug. 4.—The story that Reipe, who keeps a house on the Passaic, has found Maj. Andre's sword in his vineyard, is vigorously disputed by Mr. G. J. Green of this city, who says: "I was born within sight of the spot where Andre was captured. I have conversed with men who saw him hanged and have gathered for publication many incidents in regard to this tragic affair, and nearly forty years ago wrote a biography of his captors and married the granddaughter of one of them. I think I may assure you that the sword is not to be pronounced this whole thing a canard. I do not doubt the finding of a sword marked 'Maj. John Andre' is a fact, but the sword is not of Andre's, as was marked in a similar way found about forty years ago in a much more appropriate place than Avondale, which is twelve miles from the Passaic. The sword was found hanging from a tree in a vineyard which was hanged. That sword was sold to a traveling Englishman who was picking up Andre's sword, and he who has more money than brains. In the first place, Maj. Andre did not have any sword when he was captured, nor did he have any sword when he was hanged. He was covered up with a woolen overcoat with the capes and arms of England on the back of a coat of a blue color, having never been dyed. He had also a pair of mittens, and these, with his ruffled sleeves and bosom, excited the sympathy of the people. Andre's sword was thought it possible that such a fine shirt and pair of boots on such a fine fellow need to be housed under a fine dining room. Andre looked at the last fifty years ago, and if it looked to him half as it did to me—most looked and soiled—I think half their suspicions were well founded."

## IT WILL BE A GAY WEEK.

The Annual Encampment of the Grand Army at Boston.

NOW YORK, Aug. 4.—"We are going to have great times in Boston after next week," said Robert Q. A. Forbes at the Fifth Avenue Hotel yesterday. "You see, the Grand Army of the Republic holds its twenty-fourth annual encampment there and every effort is to be made to make it an undark of success. The State has appropriated \$300,000 and the whole thing will be on a scale of magnificence never before equalled. They have arranged for a procession five miles long, and nobody knows where all the visitors are going to have dinner. That will probably be 600,000 persons to town. The encampment begins on Monday, the great parade is to be on Tuesday and the last day will be a day of grand pageantry. Many of the leading business houses of Boston will close on Tuesday and the day will be one of general illumination and gayety."

"Everybody. The President and his cabinet, as most of it—you know they are going to be here—will be at the Club, Young Hotel, Tuesday evening, August 12. Gen. Alger, the Commander-in-Chief of the order, and Gen. Sherman, might go on for an hour and not tell you half their names. Perhaps the nicest part of the arrangements is the dinner to be given by the Relief Corps, which will have the entire week up on Saturday, and the excursion to Nahant, which will be a dinner at the Bass Rock Hotel. It will be a gay week."

E. bosom men's full dress shirts, \$6; men's and boys' domet flannel over-shirts, \$2.50; men's \$1.50 French flannel outing shirts, \$2.50; \$3.00 silk striped over-shirts, \$2; \$4 all silk shirts, \$2.40; \$3.00 Jersey ribbed undershirts, 10c; \$2.50 French sailor collars, \$2.50; \$2.50 China silk four-in-hand scarfs, 12c; \$2.50 French web suspenders, 10c; \$2.50 black fancy Half Rose, 12c; \$2.50 fancy bordered hemstitch handkerchiefs, 4c.

GLOBE, 705 to 713 Franklin avenue.

TRouble in the HAYSTEN NAVY.

Sailors of the Ships at Philadelphia Running Away.

# PHILADELPHIA, Pa., Aug. 4.—Over one-sixth of the crew of the last of the Haystens now lying in this port for repairs, have deserted, and one-fourth of the crew who were caught and are in irons on the gunboat Jacmel at Nease & Levy's shipyard. The force of the two boats, Desseillins and Jacmel, is 110 men, officers and crew, including the admiral. Nine men have deserted from the Desseillins and eleven from the Jacmel. Six from the latter were arrested. Nine more from the Jacmel have run away, and they were treated harshly. The nine men from the Desseillins, it is said, will not be allowed to have run away when the Jacmel will be ready to receive them.

The捉拿 of the crew of the Jacmel will be a musting on the Desseillins. An engineer, a quarter master and two firemen returned to the Desseillins. An admiral sent to prison for fifteen days, and then charged them \$55 each, according to their story, to be allowed to go to the gunboat Jacmel, which was to be sent to the Haystens. The officials were charged for keeping them. The Haystens is now lying at the Shipyard—Campbell, who was a purser, was sent yesterday. The Haystens are nearly finished and in less than a month the war craft of the land of Hippolyte will be gone, and the port of the Third and Fourth Districts say they will be glad of it.

On August 8, 9, 10 and 11, 1890, Round trip New York Tickets via Vandalia and Pennsylvania Lines will be on sale at twenty-three dollars and a half, good to return until September 20. Through sleepers and all meals served in dining cars.

Burglars at Bellingville.

Burglars made a heavy haul at Bellingville early yesterday morning from the stores of Henry Bellingville. A large iron safe was removed from the store of F. W. L. Donnelly, the Browns' new third baseman, will make his first appearance before a St. Louis crowd to-morrow.

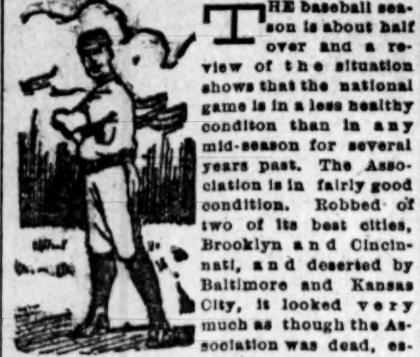

The Cleveland League Club has signed Pitcher Tom O., who has a record of eighteen strike-outs in one game.

Syracuse, notwithstanding all the reports to the contrary, will be in the Association to stay. They are getting up good Sunday round.

Latham plays at Cincinnati to-day. He is the first Brotherhood man to desert, and there

**THE SEASON HALF OVER.**  
HOW THE BASE BALL WAR HAS PROGRESSED AND ITS PROBABLE RESULTS.

The American Association Holding Its Own With Both the Leagues Losing Money—How the Admissions Totals Are Padded—The Browns to Play in St. Louis Tomorrow—Yesterday's Athletics.

THE baseball season is about half over and a review of the situation shows that the national game is in a less healthy condition than in any mid-season for several years past. The Association is in a fairly good condition, having lost two of its best clubs, Brooklyn and Cincinnati, and deserted by Baltimore and Kansas City. It looks very much as though the Association was dead, especially as three out of the four remaining clubs had lost some of their best players. But August finds eight clubs still in the circuit and seven fairly in the fight. The Brooklyn Club has not proved a success, but the other three clubs have all done well, and Rochester very well. Of the old clubs Louisville has been shaken up and revived and instead of crawling along in the rear has a strong lead. The local team opened up poorly and has done both good and bad work since. Since the introduction of new blood from Detroit the Browns have, however, struck a winning gait, and they are now on their way home from a tour which has been phenomenally successful. In Capt. Campbell can keep in the present form for a long time.

There was a time when baseball was a paying business. It is no longer and under the present system it is not likely to ever be again. The extra circuits of both Leagues are but two clubs that profess to be paying well. These are the Boston and Chicago Playboys.

The managers of the Boston team claim that they have made \$20,000 over running expenses, and Capt. Campbell is decidedly a good statement, and the Chicago people claim to be just a little better.

None of the Playboys teams have had to have extra costs, and they would be laughed at if they did. The League clubs openly acknowledge that they are losing money, and the American is not far from expectation. Aside from the two mentioned above, money is being lost in every city of the Brooklyn and the Browns, and the Brotherhood clubs do not seem to have

One mile trot—H. Jurka (80 yards), first; John Mulroy (scratch), 28 feet 3 inches.

Running high jump—George F. Powell (scratch), 5 feet 6 inches; W. A. Wilson (scratch), second; 5 feet 4 inches.

One hundred and forty yard's run, first: H. A. Weiske, 10 yards, first; A. H. Miller, 10 yards, second; 10 yards.

One mile run—D. Daniel Leahy (scratch), first; 22 feet 6 inches; William Bellison (2 feet), second; 21 feet 10 seconds.

One mile walk—H. Jurka (80 yards), first; M. G. Gaines (scratch), second, Time, 1:20.

Pole vault—W. A. Wilson (scratch), 9 feet 5 inches; John C. Mayers, 16 inches, second, 9 feet.

One mile run—Ed Byrnes, 45 yards, second, Time, 2:03-2.

Running broad jump—John Mulroy, 9 inches, first; W. A. Wilson (scratch), 8 inches, second, 8 feet 5 inches.

One mile run—Ed Barth (110 yards), first; J. Leacock, 10 yards, second.

One mile run—W. A. Wilson (scratch), 10 yards, first; 9 feet 5 inches.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.

One mile run—Ed Barth (110 yards), first; J. Leacock (scratch), second, Time, 2:03-2.
